### **Rhododendrons & Azaleas**

#### ***Rhododendron praeevernum* -RSF 4192**

**5 year old seedlings \$40**

A beautiful large leaved species Rhododendron that is seed grown from the Rhododendron species foundation. Plants flower very early (April ish) with an open truss of tubular white, pale to deep pink or pinkish lilac, flowers with a large purple or crimson blotch.

Size: 2-2.5m in 10 years-Site: Partial shade in a sheltered woodland setting. Prefers well drained humus soils

Zone 6 –

#### ***ROYAL AZALEA-Rhododendron schlippenbachii*-**

**5 year old seedlings \$40**

A beautiful deciduous azalea species that produces slightly fragrant pink flowers in late May/June. Leaves turn shades of burgundy and crimson in Autumn. A stunning easy to grow species for the woodland garden or border.

Zone: 5. Full sun/part shade

Size: 2m x 1m-

**LATE & LOVELY AZALEA-Rhododendron 'Late & Lovely' 4" pots \$15**

A beautiful selection of evergreen azalea by the late Richard Steele. A very low growing plant with large salmon pink flowers in June/July

Zone: 5b/6. Full sun/part shade

Size: 0.5m x 1m

**Rhododendron keiskei 'Dean Barber'**

**4" pots \$15**

A stellar selection of this charming species low growing flowering in May. Pale yellow-ivory flowers smother the entire plant. This plant is best cultivated in a sheltered spot with moist acidic soil, in a partially shaded woodland setting.

Size: 0.5 m x 1.5m

Zone 5b

Site: Partial shade in a well-draining soil

**Rhododendron pachysanthum x makinoi**

**5 year old seedlings \$30**

A hybrid between two great species. Long, needle-like attractive foliage. Flowers should be pink-white.

Size: 1.5m x 1m

***RHODORA-Rhododendron canadense***

**6" \$20**

A beautiful deciduous native species tolerant of wet conditions. Rhodora is a beautiful native rhododendron known for its vibrant lavender-pink flowers that bloom in spring..

Size: 0.75 m x 1m

Zone 3

Site: Full sun to partial shade in a moist soil

## **CONIFERS**

***BLUE STAR JUNIPER-Juniperus squamata 'Blue Star'***

**4" pots \$15**

This is one of the best dwarf conifers available. It can fit into almost any garden situation and is especially effective in an alpine setting. Full sun and regular pinching back of the foliage will keep this blue gem, compact and full.

Zone 4b. Size: Size: 0.5 m x 1 m

***Chamaecyparis pisifera* 'Curly Tops'**

**4" pots \$15**

Distinctive blue/silver 'Curly' foliage forms a dense compact, pyramidal plant.

Zone: 5

Size: 3m x 2m

Site: Full Sun to part shade

***Chamaecyparis pisifera squarrosa* 'Intermedia'**

**4" pots \$15**

A compact, grey-blue, bun-shaped plant. Ideal for foundation, heath & heather and conifer plantings.

Site: Full Sun to light shade

**HINOKI FALSE CYPRESS *Chamaecyparis obtusa nana 'Gracilis'* 4" pots \$15**

The most popular of the Dwarf Hinokis. Beautiful fresh green foliage arranged in fans. Plants take on a conical shape. Plant in a sheltered area, in full sun.

Zone: 5-5b Size: 2m x 1m

Site: Sun

**Golden Tuffet Arborvitae- *Thuja occidentalis 'Golden Tuffet'* 4" pots \$15**

A compact conifer forming a dense mound of attractive yellow spring foliage that matures to a golden orange color with hints of lime green. Dwarf Evergreen.

Size: 0.5m x 0.5m

Zone: 3. Site: Full Sun

**ROYAL GOLD LAWSON'S CYPRESS-*Chamaecyparis lawsoniana* 'Royal Gold' 4" pots \$15**

A stunning lime green-yellow foliage form. Plant in a protected site. Grows well with sun - bright shade

Site: Full sun

**DWARF GOLDEN THREADLEAF FALSE CYPRESS-*Chamaecyparis pisifera filifera* 'Aurea Nana' 4" pots \$15**

Beautiful fine textured, thread-like, bright yellow foliage. Full sun for maximum colour.

Zone: 5. Size: 1 m x 1 m

## **BROADLEAF EVERGREENS**

**SILVER VEINED WINTERCREEPER-*Euonymus fortunei* 'Wolong Ghost' 6" pots \$20**

Silver-Veined Wintercreeper is an evergreen ground cover plant with narrow, dark green leaves with conspicuous silvery-white markings along their veins. Plants will form a dense ground cover mat or can also be trained to grow nearly as a climbing plant.

Size: Groundcover. Part shade/shade

Zone 5

***Pieris 'Little Heath'* 4" pots \$15**

A neat, compact shrub with a white-green variegation on the margins of green foliage. New foliage has a pinkish hue. Showy clusters of small, white, bell-shaped flowers are produced in early spring.

Size: 1m x 1m

***BLUE ICE ANDROMEDA -Andromeda polifolia 'Blue Ice'* 4" pots \$15**

A COPF registered plant. This cultivar has superior blue foliage that is very eye-catching.

Zone: 4. Size: 40 cm x 50 cm

Site: Sun

***PRAGUE VIBURNUM-Viburnum x pragense* 6" pots \$20**

Beautiful evergreen shrub with lustrous, dark green leaves. Pink buds develop in early spring and open to mildly fragrant, creamy white flowers. Sun-part shade

Size: 3m x 3m

Zone: 5B

## **HEATHS and HEATHERS**

***Peter Sparkes Scotch Heather-Calluna vulgaris 'Peter Sparkes'* 4" pots \$15**

One of the best for its late season floral display. Masses of double pink flowers literally smother the plant. Excellent as a dried flower. Blooms from late August to October.

Size: 30 cm x 50 cm

***Silver Knight Scotch Heather-Calluna vulgaris 'Silver Knight'* 4" pots \$15**

Lavender flowers, August to September. A vigorous, grey-foliaged form. New growth takes on a wonderful silvery frosted appearance. Upright habit.

Size: 30 cm x 65 cm

Zone: 5. Site: Full Sun

***Wickware Flame Scotch Heather-Calluna vulgaris 'Wickware Flame'* 4" pots \$15**

Mauve flowers, August to November. Gold summer foliage, turning shades of orange-red in winter.

Zone: 5. Site: Full Sun

***Calluna vulgaris 'Finula'* 4" pots \$15**

Low plants with dark green foliage and tapering stems of lilac buds in summer through to autumn. Great in a rock garden or the front of a border.

Size: 10 cm x 30 cm

Zone: 5

***Calluna vulgaris 'Yellow Globe'* 4" pots \$15**

Cushion-like habit approximately 10-15cm tall with a spread to 16-20cm. It has yellow foliage that turns orange-red in winter that hug the ground. Great in a rock garden or the front of a border.

***Calluna vulgaris 'White Lawn'* 4" pots \$15**

One of the more unusual cultivars, this type grows very low producing long white sprays of flowers that hug the ground. Great in a rock garden or the front of a border.

Size: 5 cm x 40 cm

Zone: 5

***IRISH HEATH-Daboecia cantabrica* 4" pots \$15**

An evergreen shrub related to heaths and heathers. Glossy green foliage is covered in large pink/purple bell flowers most of the summer into late fall. Plants need winter protection with boughs. Cut back 1/3 in spring

Zone: 6. Full sun/part shade

Size: 0.5m x 0.5m

***Erica carnea 'Golden Starlet'* 4" pots \$15**

One of our favorites for its winter colour. Bright yellow foliage during the summer months turns yellow-gold in the winter. Compact habit. White flowers, March to May. Great for bees. Size: 30 cm x 65 cm

***WHITE CORNISH HEATH-Erica vagans f. alba 'Kevernensis Alba'* 4" pots \$15**

A compact dwarf evergreen shrub to 25cm tall, with bright green foliage and white flowers in short racemes in late summer and autumn.

Zone: 6 (Needs protection from wind and winter sun)

Size: 25cm x 25cm Sun part shade

## **SHRUBS**

***SHOWY LANTERNS ENKIANTHUS-Enkianthus campanulatus 'Showy Lanterns' 4"***

**pots \$15**

A superb form of the species with clusters of hanging red bells.

Size: 2m x 1m

Zone: 5b. Site: Moist soil, part shade/sun

***RED FLOWERING ENKIANTHUS-Enkianthus campanulatus (Alleyne Cook selection) 4"***

**pots \$15**

A superb form of the species with clusters of hanging red bells. Propagated from the garden of Alleyne Cook. Fantastic scarlet fall leaf display

Size: 2m x 1.5m

Zone: 5b. Site: Moist soil, part shade/sun
